

GMHA JHC EQUIPMENT CHECKLIST

With an emphasis on individual work and development, GMHA requires all clinic participants to have their own feed, supplements and stable supplies, including grooming tools and tack.

All riders must wear an approved ASTM/SEI helmet at all times when mounted and wear cross country vests and medical armbands while riding over fences and on the cross country course. Riders must wear breeches or jodhpurs, boots, or jodhpur boots and leggings when riding. **No tank tops.** No riding will be allowed without proper dress. Proper footwear is a must for safety! **Only tall boots or paddock boots with half chaps are permitted for all riding.**

All items on the following list are important and required for participants' safety and their horses' well-being. Some items may be shared, if a rider is coming with a friend. Please make sure that all tack items are properly fitted and in good working order. Please check the condition of all stitching and leather, and make sure that all equipment is clearly marked with your name. - LINKS ARE FOR REFERENCE
