PRESIDENT’S MESSAGE

Dear Members and friends of GMHA,

Life feels delightfully normal at GMHA. Last season we welcomed nearly the same level of participation in our programs and competitions as pre-pandemic. We did have an incredibly dry summer, which was hard on Vermont in many ways, but the silver lining was almost no competitions in the middle of downpours and truly spectacular weather much of the summer. We can only hope that 2023 will bring sunny weekends and enough rain during the week for the hay and pastures.

Participation in our pleasure rides last season went through the roof, and we are working to get ready for another great summer on the trails. With all the interest in trail riding, we are encouraging new participants to try out competitive trail riding in 2023 with some fun new introductory competitions. Give it a try if you enjoy being on the trails and want a little excitement of competition.

GMHA will celebrate its 100th anniversary in 2025! As we ramp up for the celebration, we are gathering pictures, memories and stories reflecting GMHA through the years. We welcome the participation of all who have enjoyed and appreciated this special place to participate. Please share with us your pictures and stories by contacting board member Charlotte Williams, who is the chair of the 100th anniversary celebrations committee, at lutton@prodigy.net.

You should have your GMHA calendar by now, so mark the dates and join us this summer for some of the wonderful opportunities in this beautiful place.

Yours truly,

Kathy McHugh
President, Board of Directors

EXECUTIVE DIRECTOR’S MESSAGE

It’s a wrap! Another extraordinary year at GMHA has come to a close. The year was highlighted with full shows, clinics, camps and the lack of rain. The absence of rainy weekends allowed visitors, competitors, pleasure riders, spectators and staff to enjoy their time at GMHA. We were fortunate that when the rains did come it was during weekdays between competitions. These storms saved our precious turf from turning to dust. The drought highlighted the fragility of the water supply that GMHA relies on for drinking water to keeping the footing “just right”. This is a concern to be carefully watched as the amount and form of rainfall fluctuates with the climate change.

Over the last few years, GMHA has worked to reduce our environmental footprint whether it was through better manure management to keep pollutants out of the watershed, the installation of energy efficient lighting in our barns and arenas or the use of electric vehicles. With this long-term outlook in mind, two additional steps were taken as a result of generous donations by the GMHA family. First, our neighbors at Birch Hill Farm donated two electric “GEM” vehicles for the use on the grounds. These all-electric vehicles are enclosed, heated and quiet. They provided a useful tool to get officials around and even as judges booth for the mini-driving arena. They provided a great conversation starter among competitors and spectators alike. Second after a year of planning, a solar array was installed on the Upwey barn roof. This project was made possible by a generous donation by GMHA Board member Charlotte Williams. This donation will allow GMHA to benefit from the savings of the solar electricity generated. Instead of waiting for 8-10 years of electrical payback, GMHA will immediately be able to realize the cost savings to its operating budget for years into the future. The two new electric vehicles can be charged from the excess energy the array produces. We all thank them both for their generous donations.

GMHA has not been immune to the inflationary pressures we all are experiencing in our day-to-day life. Staff has worked to increase efficiency and maintain affordability for all. As we wrapped up our season through the hard work of our Board President and the generous donations of two families, GMHA has established two new endowment funds that will provide additional scholarships for both youth and adult riders to assist in their equestrian endeavors. Look to the Spring of 2023 for their announcement and application process.

Finally in completing my third year as Executive Director and nineth summer at GMHA, I look to the future with excitement and encouragement for the upcoming year. Anticipating the return of familiar faces, riders, family, friends and visitors all enjoy GMHA to its fullest makes all the hard work worthwhile. Thank you and see you in 2023!

Bruce Perry
Executive Director
